CATRA Group Line Cards

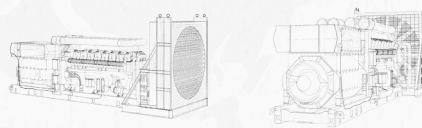

CATRA Assem

We are proud to provide you with the highest quality wire solder products available on the market. Our selection of products includes everything from standard and specialty wires, to soldering tools and accessories.

CATRA Machinery

The important point regarding used machinery that you should consider is whether they are clean, have been kept under good maintenance and conditions, have low running hours, work properly and accurately, and are safe and sound.

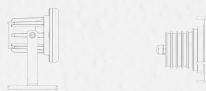

TOPMET[®]

Topmet products include aluminum profiles for linear lighting that allow you to implement various lighting projects, achieve a variety of interior effects and give the decorated rooms a unique atmosphere.

NIVISS

NIVISS is engaged in designing, implementing and manufacturing LED Engines (LED modules) and LED Lighting (outdoor lighting). All products, which are based on LEDs, meet the highest quality standards and have all required certificates.

kariik

Karlik has produced electrical installation equipment since 1978 which from its smallest element to the final shape is a result of commitment, work, time and emotions of our family business employees.
